

### What's Awaiting You After Pathway?

CONGRATULATIONS FOR STARTING YOUR second semester of Pathway! After successful completion of Pathway, students may apply to become official degree-seeking (matriculated) students at BYU-Idaho. You can choose to enter BYU-Idaho's Online Degree Program (which locks in Pathway's reduced tuition rate), apply to study on campus in Rexburg, or choose local options of study close to your home.

Students who enter the Online Degree Program have over 15 options to choose from as they begin working toward a professional certificate, an associate degree, and/or a bachelor's degree. You should work with the Pathway Support Center during this semester to begin the application and matriculation process. The Pathway Support Center is an excellent resource for any questions you may have. Visit [www.pathway.lds.org/support](http://www.pathway.lds.org/support) for more information about how The Pathway Support Center can assist you.

*"The hardest choices in life aren't between what's right and wrong, but between what's right and what's best."*

JAMIE FORD

### Steps to Advancement:

- 1 Successfully complete Pathway with at least a "B" average — 3.0 GPA.
- 2 Research available online degrees to see which is best suited for you and your future endeavors.
- 3 Apply as a degree-seeking student:
  - a. Agree to live by the BYU-Idaho Honor Code.
  - b. Receive an ecclesiastical endorsement from your bishop and stake president.
  - c. Visit [www.besmart.com](http://www.besmart.com) to complete your application.
- 4 You can always choose the path of pursuing local opportunities available to you. Your Pathway missionaries can help as you explore these options.

### What is Matriculation?

To become enrolled as a degree-seeking student of a college or university.
